

M'KINLEY
HARD HIT

An Alleged Break From His Ranks.

MORTON'S STRENGTH DOES THE WORK.

Platt Not Yet Buried as Deep as Thought.

MARK HANNA COOL BUT APPREHENSIVE.

He Realizes That the Nomination Must Be Made Today, and That the Opposition Must Not Be Given a Chance To Concentrate Their Forces Against Him—Balloting Begins Tonight, Unless the Anti-McKinley Men Force an Adjournment.

St. Louis, Mo., June 17.—[Special]—It is alleged that a break has occurred in the McKinley ranks. It is said that Foraker and half the Ohio delegation have deserted Hanna in behalf of Morton for vice president. Hanna is firm and confident, but realizes that the nomination must be made today, for fear that a delay may

give the opponents a chance to concentrate their forces.

It is likely that the convention will remain in session until nominations are made.

The strength of Morton is a great surprise to all, and shows the skillful work on behalf of Platt.

Balloting will begin this evening unless the anti-McKinley forces force a recess.

McKinley Men in Control

St. Louis, Mo., June 17.—[Special]—The convention met again at 2 o'clock after an hour's recess for lunch.

The platform as sent out this morn-

ing was presented and is now being discussed.

Senator Teller of Colorado, presents a minority report for free silver.

A second minority report meeting the views of the extreme goldites is being prepared.

The report of the committee on credentials is causing considerable adverse comment and may be rejected.

McKinley shouters are in complete control of the convention and great enthusiasm prevails at every mention of his name.

In his opening speech permanent chairman Thurston strongly eulogized the Ohioan and was wildly cheered.

Probably the convention will take second recess at six o'clock.

Nominating speeches will be made tonight.

St. Louis, June 17.—The hands of the clock were at 12:20 when Chairman Carter called the republican national convention to order Tuesday. Mr. Carter made some directions about the

seats and then announced the prayer by Rabbi Sale. The thousands struggled up to their feet when they caught the significance of the Rabbi's outstretched hands and stood for three minutes with bowed heads.

The first demonstration of the convention came when Chairman Carter introduced Charles W. Fairbanks of Indiana as the temporary presiding officer. William H. Sutherland of the New York delegation seconded Mr. Fairbanks' nomination, and his selection was indorsed by the unanimous vote of the delegates. As Mr. Fairbanks stepped forward to deliver his speech a wave of applause ran around the galleries. He said in part:

"Gentlemen of the Convention:—I am profoundly grateful for this expression of your generous confidence. As citizens we were never called upon to discharge a more important duty than that which rests upon us—the nomination of a President and Vice-President of the United States. This duty is a peculiarly impressive one at the moment, for it is already written in the book of fate that the choice of this convention will be the next President and Vice-President of the great republic."

The democratic administration he blamed for the past three years of "panic, wasted energy, anxiety and loss to the American people," and pronounced an eloquent eulogy upon the past record of the republican party.

Passing to the recent issuing of bonds, he said:

"To meet the monthly deficit and protect our credit and save the government from protest the president has been forced to sell bonds; in other words, he has been obliged to mortgage the future in a time of peace to meet the current obligations of the government. This is in sharp contrast with the republican record. Our tariff laws not only raised revenue, but they protected our domestic industries; they impartially protected the farmer and manufacturer, both north and south. Not only that, but they also raised sufficient revenue to gradually reduce the public debt and without imposing a grievous burden upon the people. During the administration of Harrison \$236,000,000 of obligations were paid, while Cleveland, during the last three years, has added to our interest-bearing debt \$262,000,000. Against such democratic financiering the republican party enters its emphatic protest."

"Having attempted to reverse the tariff policy of the United States with such lamentable results, the democratic party now proposes to reverse the currency policy. The present currency system is the fruit of republican wisdom. It has been adequate to all our past necessities and if uncorrupted will meet our future requirements. Our greatest prosperity was attained when republican currency laws were in full operation. When the republican party was in power our currency was good; it was made as good as the best on the globe. We made sound money and we also made an honest protective tariff to go with it. Sound money and an honest protective tariff go hand in hand together, not one before the other. The very foundation of a sound currency system is a solvent treasury. If the people doubt the integrity of the treasury they will question the soundness of the currency. Recognizing this fundamental fact the republican party always provided ample revenue for the treasury."

"The republican party has not been unfriendly to the proper use of silver. It has always favored and favors to-day the use of silver as a part of our circulating medium. But it favors that use under such provisions and safeguards as shall not imperil our present national standard. The policy of the republican party is to retain both gold and silver as a part of our circulating medium, while the policy of the free coinage of silver leads to certain silver monometallism. It is an immutable law that two moneys of unequal value will not circulate together, and that the poorer always drives out the better."

"Those who profess to believe that this government can, independently of the other great commercial powers, open its mints to the free and independent coinage of silver at the ratio of 16 to 1, when the commercial ratio in all the great markets is 30 to 1, and at the same time not drive every dollar of gold out of circulation, but deceive themselves. Great and splendid and powerful as our government is, it can not accomplish the impossible. It can not create value. It has not the alchemist's subtle art of transmuting unlimited silver into gold, nor can it, by omnipotent fiat make 50 cents worth 100 cents. As well undertake by a resolution of congress to suspend the law of gravitation as attempt to compel an unlimited number of 50-cent dollars to circulate with 100-cent dollars at a parity with each other. An attempt to coin unlimited dollars of such unequal value to circulate at a parity is bad in morals and is vicious in policy. Sound thinkers upon the great question of the currency know from the beginning of the experiment how miserably and certainly it would fail. The commerce of the country would be again thrown upon the sea of uncertainty, and the specter of want would continue to haunt us for years to come."

"Upon opening our mints to the independent free coinage of silver foreign credits would be withdrawn and domestic credits would be greatly curtailed. More than this, there would be a certain and sudden contraction of our currency by the expulsion of \$620,000,000 of gold, and our paper and silver currency would instantly and greatly depreciate in purchasing power."

"But one result would follow. This:

Enterprise would be further embarrassed, business demoralization would be increased, and still further and serious injury would be inflicted upon the laborers, the farmers, the merchants, and all those whose welfare depends upon a wholesome commerce. A change from the present standard to the low silver standard would cut down the recompense of labor, reduce the value of the savings in savings banks and building and loan associations, salaries and incomes would shrink, pensions would be cut in two, the beneficiaries of life insurance would suffer; in short, the injury would be so universal and far-reaching that radical change can be contemplated only with the gravest apprehension.

"A sound-money currency is one of the essential instruments in developing our commerce. It is the purpose of the republican party not only to develop our domestic trade, but to extend our commerce into the uttermost parts of the earth. We should not begin our contest for commercial supremacy by destroying our currency standard. All the leading powers with which we must compete suspended the free coinage of silver when the increased production of silver forced the commercial ratio above the coinage ratio in gold. Shall we ignore their ripened experience? Shall we attempt what they have found utterly impossible? Shall it be said that our standard is below theirs? You cannot build prosperity upon a debased or fluctuating currency; as well undertake to build upon the changing sands of the sea.

"We protest against lowering our standard of commercial honor. We stand against the democratic attempt to degrade our currency to the low level of Mexico, China, India and Japan. The present high standard of our currency, our labor and our flag will be sacredly protected and preserved by the republican party."

A defense of the principles enunciated by the Monroe doctrine was followed by the reference to affairs in Cuba: "The struggle for Cuban liberty enlists the ardent sympathy of the republican party—a party which has given to liberty its fullest meaning on this continent. We wish to see a new republic born on Cuban soil greet the new century whose dawn is purpling the east."

"My friends, the campaign of 1896 is upon us. The great questions for debate in the august forum of the United States are free trade and free silver against a protective tariff and sound money. As we regard our homes and our honor, our happiness and prosperity and the future power and majesty of the republic, let us dedicate ourselves to the restoration of a protective tariff which shall be genuinely American and the maintenance of an honest standard of value with which to measure the exchanges of the people."

"A distinguished republican has said that the supreme desire of the American people is for an 'honest currency and a chance to earn it by honest toil.'"

Mr. Fairbank's address was liberally applauded throughout. Certain parts of it were especially cheered, not only by the convention, but by the immense audience in the galleries.

The recommendation of the national committee as to the temporary officers was concurred in, and the additional officers were declared elected.

Mr. William Lamb of Virginia offered the following:

Resolved, That until the permanent organization is perfected this convention will be governed by the rules of the last republican national convention. The motion was unanimously carried.

PLANKS PRESENTED BY TELLER.

Silver Propositions Rejected by Subcommittee on Resolutions.

St. Louis, Mo., June 17.—During the consideration of the currency question by the sub-committee of the committee on resolutions Senator Teller presented four propositions favoring the principles of bimetalism for which the silver men contend, all of which were rejected. The Colorado senator then offered a proposition for the free coinage of American silver. In doing so he said that the resolution was not his, that he offered it by request. He said that he was not an advocate of the policy embodied in the proposition, but that it had been asserted that the party would accept silver coinage restricted to the American product, hence he decided that the committee should pass upon it. As for himself, he would only vote for it in lieu of absolute free coinage, which had been rejected. This resolution was worded as follows: "The republican party

pledges itself to the free coinage of all silver which may be produced in this country, and offered at the mints, at the ratio of sixteen parts of silver to one of gold." This resolution was defeated by the same vote as the preceding ones—8 to 1.

VICE-PRESIDENTIAL FIGHT.

Said to Be Causing Uneasiness to McKinley's Managers.

St. Louis, Mo., June 17.—The campaign for vice-president has overshadowed everything else, and given the friends of Major McKinley the most serious concern that they have had since they came to St. Louis. The Platt men say that they will present the name of Morton for vice-president, and the anti-Platt men in New York, headed by Warner Miller, have given out an address signed by seventeen New York delegates protesting against taking a candidate for vice-president from that state. Mr. Hanna, it is said, begins to fear the result of his concessions to the gold men of the east, and that with a platform for the maintenance of the existing gold standard and a candidate indorsed by Mr. Platt as a gold man, McKinley and protection will be made to take a second place in the campaign, whatever the result of the election.

Teller et al. Not Likely to Bolt.

St. Louis, Mo., June 17.—Parties who have talked with Senators Teller and Dubois, the leaders of the extreme silver republicans, express the opinion that they will not bolt the convention, even though its action is entirely unsatisfactory to them. The opinion of these gentlemen is that the silver republicans will protest against the action of the convention, but await developments at Chicago before determining their course.

Gov. Morton Won't Talk.

Rhinebeck, N. Y., June 17.—Governor Morton, when seen at Ellerslie, refused to confirm or deny the report to the effect that he had received a request from the New York state republican leaders at St. Louis to accept the nomination for vice-president. It was stated at his home by one who is in close touch with the governor that he was a candidate for presidential honors only.

On Permanent Organization.

St. Louis, Mo., June 17.—The committee on permanent organization met at the Southern Hotel immediately after the adjournment of the convention. Delegate Trummel of Nebraska moved that Senator John M. Thurston be selected for permanent chairman. Without a single negative voice the action carried. It was then ordered that the temporary secretary and his entire staff be made permanent.

Pleasing News to Speaker Reed.

Washington, June 17.—It is learned that the dispatches received from St. Louis indicate a stronger Reed sentiment than at any time since the delegates began assembling for the convention. This information comes from reliable sources and indicates a disintegration to a greater or less extent in the McKinley camp.

Mr. Cleveland Writes a Letter.

Washington, June 17.—In reply to a request from the New York Herald for a statement concerning the democratic situation, President Cleveland submitted the following:

"My attachment to true democracy is so strong that I consider its success as identical with the promotion of the country's good. In my opinion no effort should be spared to secure such action of the delegates as will avert party demoralization. It is a place for consultation and comparison of views, and those democrats who believe in the cause of sound money should there be heard and be constantly in evidence. A cause worth fighting for is worth fighting for to the end. It sound money democrats suppose there is danger of a mistake being made, such danger should stimulate the inactivity in averting it instead of creating discouragement."

Denounced the Flag Law.

Urbana, Ill., June 17.—The democrats of the Sixteenth senatorial district in convention adopted resolutions denouncing the flag law, for the alleged violation of which the trustees of the university of Illinois were recently indicted, and demanding that the democratic representatives from this district endeavor to have the act repealed.

Arkansas May Indorse Bland.

Little Rock, Ark., June 17.—The democratic state convention meets here to-day. The chief interest attaches to the probable indorsement of a presidential candidate. Bland of Missouri has 146 instructed votes, Boies of Iowa has ten, and Bryan of Nebraska has many adherents.

Declare for Sixteen to One.

Pocatello, Idaho, June 17.—The Idaho democratic state convention adopted resolutions advocating the free and unlimited coinage of silver at the ratio of 16 to 1, without waiting for any international agreement, and denouncing the financial policy of the republican party.

Florida Democrats Meet.

Ocala, Fla., June 17.—The state democratic convention met Tuesday. After the appointment of the credentials committee the convention adjourned until to-day. The gold-standard men have a majority on the credentials committee.

TEXT OF PLATFORM AS AGREED UPON

RESOLUTIONS SUBCOMMITTEE COMPLETES ITS WORK.

Proposed Tariff Planks Are Remarkably Strong—The Party Pledged to No Particular Straddle—Reciprocity Indorsed—The Currency Question Decided by a Strong Gold Plank.

St. Louis, Mo., June 17.—The subcommittee of the committee on resolutions adopted a draft of the platform last night and put it in the hands of typewriters for preparation for their meeting at 9 o'clock this morning, at which time some verbal amendments will probably be made.

The platform commences with a strong condemnation of the tariff policy of the democratic party, which is blamed for the dull times. It goes on: "We renew and emphasize our allegiance to the policy of protection as the bulwark of American industrial independence and the foundation of American development and prosperity. In its responsible application it is just, fair and impartial, equally opposed to foreign control and domestic monopoly, to sectional discrimination and individual favoritism."

"We denounce the present democratic tariff as sectional, partisan, and one-sided, and disastrous to the treasury and destructive of business enterprise, and we demand such an equitable tariff on foreign imports which come into competition with American products as will not only furnish adequate revenue for the necessary expenses of the government, but will protect American labor from degradation and the wage level of other lands."

"We are not pledged to any particular schedule. The question of rates is a practical question to be governed by the condition of the times and of production. The ruling and uncompromising principle is the protection and development of American labor and industry. The country wants a right settlement and then it wants rest."

"We believe in liberal reciprocity and just relation, and demand the application of the golden rule of commerce of all future legislation affecting the tariff and the foreign trade. We believe the repeal of the reciprocity agreements negotiated by the last republican administration was a national calamity, and demand their renewal and extension on such terms as will equalize our trade with other nations and remove the restrictions that now obstruct the sale of American products in the ports of Europe and secure new markets for the products of our farms, forests, and factories."

"We pledge ourselves to restore the early American policy of discriminating duties for the protection of our shipping in the foreign carrying trade, so that American ships, the product of American labor, employed in American shipyards, sailing under the stars and stripes, and manned, officered, and owned by Americans, may regain the carrying of American foreign commerce."

"The republican party is unreservedly for sound money. It caused the enactment of the law providing for the resumption of specie payments in 1873; since then every dollar has been as good as gold. We are unalterably opposed to every measure calculated to debase our currency, or impair the credit of our country. We are, therefore, opposed to the free coinage of silver except by international agreement with the leading commercial nations of the world, which we pledge ourselves to promote, and until such agreement can be obtained, the existing gold standard must be preserved. All our silver and paper currency now in circulation must be maintained at a parity with gold, and we favor all measures designed to maintain inviolably the obligations of the United States and all our money, whether coin or paper, at the present standard, the standard of the most enlightened nations of the earth."

"We condemn the present administration for not keeping faith with the sugar producers of this country; the republican party favors such measures of encouragement and protection as will speedily lead to the production on American soil of sugar which the American people use, and for which they pay to other countries more than \$100,000,000 annually."

The foreign plank, drawn by Senator Lodge, is general in its nature, outlining a policy in regard to current foreign questions. It contains a declaration for the protection of American citizens abroad; reaffirms the position of the party in favor of the Monroe doctrine; indorses the administration of President Harrison on the attitude of this country toward Hawaii; demands protection for American missionaries in Armenia; expresses sympathy for the Cubans in their war for independence, and takes a position in favor of awarding them belligerent rights.

Civil service reform is approved, and the extension of the principle wherever practicable. The use of public money for sectarian purposes and the union of church and state is opposed. A declaration is made in favor of arbitration between employer and employee, but no specific legislation is demanded. A declaration is made in favor of liberal pensions, and the present administration is denounced for dropping from the rolls without examination deserving soldiers.

EARLY SCHOOL DAYS IN ROCK COUNTY

RECOLLECTIONS OF MARGARET KING HERN.

High School Edition of The Gazette Carries Her Back to the Time of the "Old Brick School" and the "Academy"—Some of the Pupils of Days Gone By.

Clark, S. D. June 17.—While looking over the High School edition of The Gazette, which brother Wallace sent me, I was delighted to see so many familiar names which seem to be remembered as much with the heart as the head.

Our family came to Janesville in spring of 1844. The first school I attended was taught by a Miss Smith, a sister, I think, of Mrs. Timothy Jackman, and a good conscientious teacher. After her, in what order I do not remember, came Miss Goodrich, but sixteen years of age. While she was our pedagogue, a friendly hen occasionally managed to lay an egg in our clothes room. One day the teacher, having on a white muslin dress, put the egg in her pocket. Joe Bostwick, I think it was, who sat down beside her and accidentally (?) broke the egg. Little Addie Ruger let the teacher take her apron which she spread over the side of her dress as well as she could.

Some Other Teachers.
Orrin Guernsey was our teacher for some time and he caused us to learn. Glory Ann Wells taught several terms, but whether hers was a public or private school I do not remember; ditto in regard to Jane Stevens' school. One of the earliest and best teachers we ever had, was Miss Peabody, a dear little brunette, who taught us to sing (among others) a composition of her own, appropriate for the "end of school."

Most of us promised, if ever we taught, to teach our school to sing that song. I have taught them as well as I could in Wisconsin, Minnesota and South Dakota, and have requested my pupils to "pass them on." I attended Mr. Little's school, also D. C. Bennett's, one of the best schools I ever was a member of, and the last district school, I think, I attended.

The Bradley Female Seminary and the Academy were the last schools I had the pleasure and profit of belonging to in Janesville. We used to have a singing school in the old red brick school house on Division street taught by Mr. Chapman. Our concerts were given in the court house. I have a brick that was once a part of that dear old school house, which to me is a valuable memento of the days gone by. We, members of Mr. Chapman's singing school marched in pairs, down Milwaukee and Main streets singing:

"James K. Polk is an honest man:
To find his match, we never can," etc.
That was probably in 1847. How well I remember seeing the young soldiers marching around the "public square," before they went to Mexico! Some of the Scholars.

Following are the names of those I remember, who attended the same singing, Sunday or day school, that I did, some of them being older, but more of them younger, than I. I wonder how many are left in Janesville who can recall them all! And is there any one who remembers more of them? How differently some of them are now situated from what others are. Many have joined the grand majority,—perhaps will help open the gates for us. Rosella Moon, Mary Brown, Jennie Williston, Hattie and Delphine Clow, Homer, Ada, Helen and Dolph Russell, Alice Hume, Mary Covil, Ella Norton, the Ruger brothers and sister, Addie, the Bostwick brothers and sisters, Lucy Feath, Cornelia Tallman, Hattie and Helen More, Marion Mitchell, Melvina Kimball, (the last two I thought had the most beautiful names that girls could have; perhaps their pleasant manners had something to do with my partiality), Rozella Riber, Helen Bailey, the Boyce sisters, Lucinda Ruggles, Maria Nash, Alvira Lord, Henry and Helen Guernsey, Ella and Milton Doty, Alex May, Willie and Libbie Trask, the True sisters, Noggle sisters, Gage Burgess, Ira Dutton, Alma London, Hemmingway sisters and brother, Hattie Culver, Martha Dolson, Lucinda Dolson, Cody sisters, Teel brothers, Tewberries, Helen Nichols, Maria and Ben Bean, Fanny Jenkins, Fenton and Charles Stevens, Soper brothers, Kate, Ruth and Rueben Stevens, Nancy, Sarah-Jane, John and Lydia Day, Cynthia Demara, Margaret Record, Blanche Coryell, Dorothea Lewis, the three Stoughton sisters, Mary, Francis and Charlie Gillett, Maria Williams, Horace and Celestia Tomkins, Jane Mout, —Phelps, —Chapin, Mary

Many Memories Come.
How one's memory throngs with the names (and presences) of the dear school mates and incidents of that far past time seem to rise and materialize as it were out of a mist. At the seminary, if tardy, we had to write our names on the blackboard with the number of minutes late, and stay as many minutes after school. One morning Cornelia A. Tallman wrote "C. A. T. 8 ms." There was considerable confusion when Miss Bradley discovered it.

Jennie Corson was a baby when I knew her parents and sister, Theodora.

The name of Dr. James Mills is of much interest to me if his mother's maiden name was Jean Peacock. In that case "I kenne'd him weel when he was wee Jeanie lang syne," also his parents and grandparents. I rejoice that he has made "as much of himself."

The names of Dr. Chittenden and James Sutherland sound like household words—from the latter we obtained all our school books, among which were my first geography and grammar. Not many are left of those I was acquainted with, but it is pleasing to know that descendants bearing the same names are still there.

I presume the Volney Atwood, in the picture of the ball team, is a grandson of the one I remember, who used to be a partner of William A. Lawrence, and an editor, when I was a little girl. I hope the present incumbent is an honor to his ancestor. Eehlin, Williams and Smith are well remembered names.

Janesville In The Van.

We used to enjoy John R. Bennett's visiting our school. He knew how to say the right word, in the right place, and said it. Also John P. Dickson, whose mother dear, old Grandma Dixon, seemed a type of angel to my childish thought, a lock of whose hair I carefully preserved until taken, with other things, by the Indians in 1862. It had been a valuable memento from the time I was nine years of age.

I used to love to hear "Father Ruger" preach or talk to the children, but the last two with many others years ago, were called "up higher" where we may hope to join them in the "Sweet by and by."

Levi Alden, E. G. Fife, Major May, John King and Dr. Treat used to be popular residents of Janesville.

It gives me pleasure to know that Janesville is in the van educationally, and has a high school which, I judge from reading, will compare favorably with those in the large cities; so that the young Janesvillian has a thousand times better opportunity than their ancestors had. Good teachers with the right materials, make good schools. Am glad the Paterson sisters teach there. They are capable and conscientious.

A very pleasant social event, was the Senior class party, which was given at the Armory last night.

The hall was handsomely decorated and Smith's orchestra furnished delightful music. About one hundred and twenty-five couples participated, and the gallery was filled with spectators. The dancing program consisted of twenty-two numbers, and the party was one of the most enjoyable ever given in this city. The committees were:

Arrangement—Frank McNamara, Fred Blakey and Walter Merritt. Floor—Fred Blakey, Ed Peterson, Frank McNamara, Walter Merritt and Will Hamilton.

Among the guests from out of town were Miss Roberts, of Chicago; Miss Fannie Woodard of Clinton, and Messrs. Frank Thompson, I. Rosenblatt, E. D. Bullock, C. Carter and George Kellogg of Beloit; Frank Gagan of Clinton and Cliff Smith of Evansville.

"Our Dorothy" Company's Plays.

"Our Dorothy" company presented "The Little Detective" at the Myers Grand last night. Miss Gussie Johnstone appeared in five distinct roles: Florence Langdon, The Little Detective; the Gypsy fortune teller; Biddy Gummage, an Irish nurse; Harry Rackett, a swell, and Barney O'Brien, a little rag picker. Jimmie Field played the part of Lodovic, a light-fingered Jew, in an able manner, and his specialties were well received. Tonight the company will appear in a play called "Betsey," written especially for Miss Johnstone.

Series of Socials Planned.

A series of ice cream socials have been planned by the Y. M. C. A. concert band, the proceeds of which will go towards paying for new uniforms for the members. The first of these socials will be given in the vacant store in the Jeffris block on Milwaukee street bridge, tonight. The band is engaged to play for the celebration on the Fourth of July. They are making rapid progress, and are now in shape to do all kinds of band work.

Sociality Lawn Social.

The lawn social given by the Young Ladies' Sodality of St. Mary's church, on the lawn surrounding J. H. Gateley's residence at No. 1 Milton avenue, last evening, was a delightful affair, and a large crowd was present. Chinese lanterns were used in profusion in the decorations, and the Imperial band rendered music that all fully enjoyed. Ice cream and cake were served and the social was a financial success.

Repeat the Dolls' Drill.

The Dolls' Drill entertainment, which was given a short time ago, will be repeated by request, at the Y. M. C. A. auditorium next Friday evening. There will be several changes in the programme.

EPISCOPALIANS MEET IN ANNUAL COUNCIL

THE JANESVILLE CHURCHES ARE REPRESENTED.

Rev. A. H. Barrington, as Chairman of the Committee on Division of the Diocese, Will Report Favorably on That Proposition—Other Proceedings at the Meeting.

The annual council meeting of the Milwaukee Episcopal diocese convened in Madison yesterday, with about 100 in attendance. The Janesville delegates are:

Christ church—Rev. A. H. Barrington, Dr. J. B. Whiting, and B. B. Elredge.

Trinity church—Rev. W. H. Wotton, J. C. Fox, Harry Rancous and John Thoroughgood.

Bishop Nicholson announced the reappointment of William Rager of Janesville, as chancellor, and of the Revs. Charles L. Mallory of Delavan, Fayette Royce of Beloit, and Evan J. Evans of Chippewa Falls, as deans of the convocations.

This is the first council held outside of Milwaukee in twenty-five years and there was some fear that it would not be as largely attended as those of the past but Bishop Nicholson said that the council was the most largely attended in his recollection. Among problems is that of extending to women the right to vote in parish meetings. Nearly all of the laymen are in favor of granting suffrage to the women and some of the clergy are also inclined. Another important matter which will come up will be that of dividing the diocese. Rev. A. H. Barrington, of this city, is chairman of the committee having the matter in charge. The committee appointed at the last council to consider this will report in favor of a division, and it is thought the council will adopt the report. The Diocesan council merely recommended and the question will not be definitely settled until the meeting of the general council at Washington, D. C. in October, 1898.

DOCTORS BEAT THE DENTISTS.

Dr. Joe Whiting's Curves Too Much For The Opposition.

The doctors beat the dentists at Athletic Park yesterday, by a score of 31 to 4. The dentists could not hit Dr. Joe Whiting's pitching. Dr. Wardlaw made one hit, and Dr. Palmer made one, but in the latter case, the ball was tossed in because he had two strikes and no errors. Dr. Gibson's catching and Dr. Whiting's pitching were the features of the game. No track was kept of errors, base hits, etc., but the runs were made in this order:

Doctors.....	3 14 31-31
Dentists.....	3 0 0 1-4
Runs.....	10 0 0

The attendance was good, and the proceeds of the game will go to charity.

POLLS ARE OPEN FOR C. E. BALLOTS

CONDITIONS ARRANGED BY LOCAL ENDEAVORERS.

It Had Been Intended to Limit the Vote to Coupons Cut From the Paper But An Allowance On New Subscriptions Has Been Made By General Request.

June 1 the polls opened for the Christian Endeavor convention ballots. Somebody will go to Washington as The Gazette's guest next month. Who it is to be the vote will determine.

It was intended at first to have no voting except by coupons clipped from the paper. The premium allowed for new subscribers in the piano contest two years ago, was a source of complaint, so many blocks of votes being transferred from one candidate to another at the last moment. Consultation with members of the three local Christian Endeavor societies, however, resulted in a change of plan. It was urged by all the young people interviewed that allowance be made for new subscribers as well as for coupons. Their arguments decided the matter but it was determined that no voters should be transferred after being once recorded. The conditions of the vote will be as follows:

Any one, anywhere in any state is entitled to vote.

Cut out the coupon (trimming on the dotted lines.) Write in the name of your candidate, and send to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

None but members of the Janesville Christian Endeavor societies are eligible as candidates. The winner will have railroad and Pullman fare paid from Janesville to Washington and will have hotel expenses paid throughout the convention.

Votes may be sent in at any time. The polls close July 1 at 9 o'clock p. m.

The votes allowed on new subscriptions paid in advance will be:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 500 votes.

New subscriber paid in advance one year, 2,000 votes.

New subscriber to Weekly Gazette, paid for one year, \$1.50; four hundred votes.

Each new subscriber who pays in advance and casts the number of votes specified is entitled, of course, to cut coupons from the paper from day to day, and vote in the regular manner.

No person shall be allowed extra votes for stopping his paper and having it sent to another name at the same address. In every instance they must be bona fide new subscribers. No person will be allowed to stop his paper on Monday, start it again Tuesday and claim the premium.

WASHINGTON COUPON.

ONE VOTE FOR

The person receiving the most votes between June 1 and July 1, will have railroad fare to Washington and return, as well as hotel expenses in Washington during the National Christian Endeavor Convention, paid by the publishers of The Janesville Gazette.

BAR SALOON SLATES AND KILL THE GANG

THIS IS THE FREE SILVER WAR CRY.

Democratic Beloit News Says the County Machine of That Political Faith Must Be Replaced by Reputable Men—Reorganization Is Favored by Many, They Say.

And the end is not yet. The democratic party must be reorganized.

Slates made up in saloons "do not go."

Reputable men must be put in charge and the gang knocked out.

So says the Beloit News, the democratic free silver sheet of the Line City.

In yesterday morning's issue, Editor Metekers says:

"The democrats of Beloit and the various towns of Rock county seem to be strongly in favor of reorganizing the party in this county. The disreputable methods at Janesville, Saturday by disreputable men was such that no true democrats care to act with them. Action will be deferred until after the state convention and if the contesting delegation is not accorded its rights, the Rock county democracy will be reorganized by men of reputation and character. Democracy must represent the people else it is not the democratic party. The gang at Janesville did not take the expression of the delegates representing the people. They simply put through the slate made up at one of the saloons overriding the delegates. It was virtually an appointment of delegates by the chair. This action puts the gang outside the democratic party. They are not democrats. The spirit of the Jeffersonian democracy must be perpetuated, if it is necessary to reorganize."

"The democratic party of Rock county must be reorganized. It seems the popular idea to call a convention at Evansville for that purpose."

The Kodet....

The Kodet was especially designed for those who want a glass plate camera which can be easily adapted to use with roll films, but do not care to invest in an expensive instrument. The Kodets are made in two styles, the Regular and Folding.

They are as compact and complete as any glass plate hand camera made, and by the addition of a roll holder are immediately convertible into film cameras with a capacity of 18 exposures. The roll holders are not trappy attachments, but when in use are carried inside of the camera and completely out of the way. They are interchangeable with our plate holders, and as they are provided with a dark slide the change from plates to films can be made as readily in the field as the change from one plate holder to another.

The Kodets of either style are focused either with the index or on the ground glass, and will carry three double plate holders or a roll holder in the space in the back.

A 45 Kodet for using plates costs \$15.00. We would be pleased to show you one.

SLIGHTED GIFTS OF ROYALTY.

Queen Victoria's Etchings Auctioned Off—In Pawnshops.

It must be rather distressing to royalty to see the small value set upon the gifts which it is in the habit of distributing among its friends and followers, says Pearson's Weekly. These gifts are constantly being converted into cash in a most public and open manner, without the slightest delicacy of restraint, thus: At a great public auction recently held in London there was a valuable gold-mounted and jeweled cane, which had belonged to the late Maharajah Dhuleep Singh, and had been presented to him by the Prince of Wales as a token of friendship and regard.

It was but the other day that a number of very charming etchings, made by the queen and the late prince consort forty-five years ago, were put up for auction at Dublin. They had been presented by her majesty and her husband to one of her former ladies-in-waiting, on whose death they were offered for sale by the heirs.

The shop windows of one of the great pawnbrokers at Berlin were filled some months ago with an entire collection of valuable watches, snuff-boxes adorned with gems, articles of jewelry, etc., all presented by various sovereigns and royal personages to the late Count Visone, minister of the household to the king of Italy, and pledged without being redeemed by his scapegrace son, who until the other day was a secretary of the Italian embassy at Berlin.

DUMAS' ADDRESS.

Claimed to Have Supported Thousands of Families but Was Not Elected.

The elder Dumas stood in 1848 for the chamber of deputies, says Public Opinion, and this was his address to the electors: "I am a candidate for the office of deputy. I ask your votes. These are my reasons why you should give them to me: Not counting six years devoted to the acquirement of an education, four years passed in performing the duties of a notary and seven years as an employee of the government, I have worked ten hours a day for twenty years. That makes 72,000 hours. During those twenty years I wrote 400 volumes and thirty-five plays. Of each of the 400 volumes an average of 4,000 copies have been printed and sold at 5 francs each. The thirty-five plays have each been performed on an average 100 times. My books have produced 11,853,000 francs; my plays have produced 6,356,600 francs. Taking 3 francs a day as the average pay of a workman, and as there are 300 working days in the year, my books have paid for twenty years the wages of 692 people, and my plays the wages of fourteen years of 347 people, but the last figure must be multiplied by three to include the provinces, making 1,041, and, adding 70 for the ushers, chiefs of the clique and cab drivers, makes a total of 1,458. Plays and books, then, have paid the wages of 2,160 people for all these years, not counting Belgian pirates and foreign translators." Yet he was not elected.

The Mission of Art.

The greatest benefit we owe to the artist, whether painter, poet or novelist, is the extension of our sympathies. Appeals founded on generalizations and statistics require a sympathy ready-made, a moral sentiment already in activity; but a picture of human life such as a great artist can give surprises even the trivial and the selfish into that attention to what is apart from themselves, which may be called the raw material of moral sentiment. When Scott takes us into Luckie Mucklebackie's cottage or tells the story of "The Two Drovers," when Wordsworth sings to us the reverie of "Poor Susan," when Kingsley shows us Alton Locke gazing yearningly over the gate which leads from the highway into the first wood he ever saw, when Hornung paints a group of chimney sweepers—more is done toward linking the higher classes with the lower, toward obliterating the vulgarity of exclusiveness, than by hundreds of sermons and philosophical dissertations.—George Eliot.

Mutilated Silver Certificate.

There was received at the sub-treasury on Friday a \$1 silver certificate badly mutilated in a clumsy attempt to raise it to the \$10 denomination. It had been sought to supply the naughts necessary to the raising by removing with an eraser portions of the green until the natural white of the paper was reached. The eraser had also been used on the word "one" wherever it occurred, but with only partial success. In one place the word had been cut out. The note was presented by Mr. E. H. Lloyd, a merchant of Roanoke, Va. It had been passed upon one of Mr. Lloyd's clerks by a colored man. Mr. Lloyd stated that a number of the mutilated notes had appeared in Roanoke.—Baltimore American.

As a Safeguard.

Horace—"What's that tattooed on your chest?"
Hazy—"My name, address, photo and pedigree."
Horace—"Good heavens! Going to the north pole or into darkest Africa?"
Hazy—"Neither. I'm going to ask old De Million for the hand of his daughter and I don't like the idea of being buried in the potter's field as an 'unknown.'"—Exchange.

Petroleum for Fuel.

The Russian railroads are all making considerable progress toward the substitution of petroleum for coal and wood for locomotive fuel. Many locomotives have already been altered at a cost of about \$300 per engine.

Husbands to Burn.

The English actors who come over here are intensely English when they first arrive, but they soon show their appreciation of American colloquialisms by appropriating them. A gentleman of this city relates that some time ago, in the New York City club, he met Fred W—, the comedian. Some one was telling about a woman who had just married her third husband.
"By the way," the gentleman asked, "where is her first husband buried?"
"He was cremated," was the answer.
"And the second?"
"Also cremated."
"By Jove," observed little Mr. W—, "that woman has husbands to burn."—St. Louis Republic.

Wanted a Change.

The two small boys who wanted to fight Indians had gotten some distance from home. The romance had dwindled, and a discouragement which neither liked to confess had taken possession.
"Look here," said one of them at last, "I've been playin' I'm Sierra Sam for two days now, haven't I?"
"Yes," was the reply.
"Well, I'm kind o' tired o' that game. I think I'll play I'm the prodigal son."—Golden Days.

When a baby comes to the house real happiness comes. The care and anxiety count for nothing against the clinging touch of the little hands and the sound of the little voice. The highest function given to human beings is bringing healthy, happy children into the world. Over thirty years ago the needs of women appealed to Dr. Pierce, now chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. The result of his study improved by thirty years of practice is embodied in Dr. Pierce's Favorite Prescription. It strengthens, purifies and makes healthy the organs distinctly feminine. It gives weak women the strength and health necessary for the production of healthy children and it makes the bearing of those children easy. It is sure to cure any weakness or derangement peculiar to women: stops pain, soothes inflammation, strengthens, purifies, invigorates.

RAG TRADE OF DEWSBURY.

Hundreds of Tons of Them Are Sold There Every Week.

Those readers who know anything at all about Dewsbury will be able to call to mind the fact that the street traffic consists, to a large extent, of enormous heavily laden lorries of rags, but probably very few people outside the clothing districts of Yorkshire know what an important place in trade and commerce these old rags take, says Pearson's Weekly. Old rags to be of any use to Dewsbury must contain a certain proportion of wool or consist entirely of it. Hundreds of tons are taken into town every week, there to be knocked down under the auctioneer's hammer at the regular rag sales which are held, and then to be converted into what is known as rag wool or "shoddy." When the rags reach Dewsbury of course all sorts and conditions go to make up the bulk. The different varieties have to be sorted out carefully and placed in different heaps. A sailor's jersey, for instance, is of different texture to the worn-out evening dress suit or a soldier's coat, and, considering that the rags reach Dewsbury from nearly every foreign and colonial port, it can be easily understood that the job of sorting is not an easy one. Soldiers of all nations have to surrender their uniforms at stated intervals, and after these have been worn by some one else until they are absolute rags they are collected and shipped to this country, eventually finding their way to the Dewsbury sales. The same thing applies to carpets, blankets, skirtings, stockings, bed curtains and the like from all over the world. Wool rags go direct to the grinder for treatment. Even the dust is used, this being saved and sold as a fertilizer. Mixed cotton and woolen rags must have the vegetable fiber destroyed without in any way injuring the woolen material. This is done by what is known as the "carbonizing" process. The raw material is then sold to manufacturers in various parts of the world and as time goes on probably finds its way back again to Dewsbury as rags, there to go through the same process over again.

This Dog Runs a Bake Shop.

August Albert, an enterprising baker doing business down near the French market, owns an intelligent dog (Fifine) that keeps his master's shop for him, writes the New Orleans correspondent of the Philadelphia Times. Albert has a little bake room behind the shop and as he always gives his personal attention to the oven Fifine proves invaluable in waiting upon customers. The dog carries strapped about her neck a little bank whose slot is arranged to receive nothing more nor less than a nickel.

The customer may help himself to a loaf from the counter but woe betide one who tries to depart without depositing the requisite nickel in Fifine's bank. If more than one loaf is taken an equal number of deposits must be made in the bank or Fifine will know the reason why. She knows very well how to use her teeth in case of necessity, though she is usually as mild as a lamb and quite a favorite with her customers, but if her master should be needed she has only to pull the bell rope which communicates with the bake room and he is on the spot. Occasionally an ugly customer comes along. Recently, for instance, a tramp tried to work Fifine for a supper, but the dog grabbed his ankle as he was making for the door without the formality of a deposit, pulled the bell and kept him safe and sound till Albert appeared and a policeman could be summoned.

Shops Crowding Out Residences.

A dry goods firm has secured a logment in upper Fifth avenue in the Baudouine mansion, at the corner of Fifty-fifth street, New York, and by next October will be in full swing there in the heart of the most aristocratic quarter and under the shadow of the most palatial residences in the city. It is not to be expected that the invasion of trade in that region will cease with the establishment of a single bazaar; others are sure to follow in rapid succession, as they have done further down the avenue and in all the fashionable residential quarters of the city from the beginning till trade usurps the entire thoroughfare to the borders of the park, taking in all the great and costly mansions which in the last quarter of a century have been erected there.

Our stock of lawn mowers is large, of a first class make and at prices so low that it will not pay you to get a scythe. Lowell Hardware Co.

Eli Hill, Lumber City, Pa., writes: "I have been suffering from piles for twenty-five years and thought my case incurable. DeWitt's Witch Hazel Salve was recommended to me as a pile cure, so I bought a box and it performed a permanent cure." This is only one of thousands of similar cases. Eczema, sores and skin diseases yield quickly when it is used. C. D. Stevens.

BURNED HER ALIVE.

Fiendish Deed of an Indiana Man—Lynching Is Feared.

Elkhart, Ind., June 17.—Milton B. Wells, a well known employe at the Lake Shore and Michigan Southern railway machine shops was the perpetrator Monday night of a crime that has resulted in murder. Miss Jennie Walters, an attractive and exceptionally popular young woman, is the victim. Wells called the young woman over to his house ostensibly to get a chair which he had told her he would give her. When she entered the door he threw a quantity of kerosene oil over her and ignited it. Then without a moment's hesitation he drew a revolver and fired, the ball grazing the back of her head. Another shot struck her chin, breaking her jaw, dislodging several teeth, and lodged at the base of her brain. The young woman died Tuesday at 10 o'clock in great agony. The talk of lynching became so strong when her death became public that Wells was placed in a carriage and speedily taken to Goshen and placed in the county jail. There is some talk of a party organizing and going to Goshen for the purpose of taking the matter into their own hands.

President Cleveland Indorsed.

Dover, Del., June 17.—The democratic state convention Tuesday named delegates to the national convention. The platform says "We believe that the true interests of the people require that earnings by agriculture, trade and labor shall be paid in money intrinsically worth in all markets of the world what it purports to be worth, and that the government should keep its obligations at all times redeemable and payable in money of the standard adopted and now in use by ourselves and the most advanced civilized nations of the world." It also indorses the administration of President Cleveland.

\$2.50! \$2.50!

Ladies' Special Tan and Black Shoes!

Scarcity of money, stories of hard times, rumors of harder times, makes us think that perhaps there are people who can't afford to buy footwear---at least they can't get the kind that cost them \$3.50, \$4.00 and \$5.00. We want to assure all these people that it is not necessary to make such expenditures.

For \$2.50 we can give the ladies a shoe---either tan or black---that will give perfect satisfaction, both in wear and style.

The Tan is of the rich chocolate color, the pretty 20th Century last, sharp toe, and the make-up that is as tasty as any shoe made, none excepted.

The Black is the same only, of course, in color. We are making a specialty of **\$2.50 ladies' shoes**, and the lines we now show are nearer perfection in shoe making than many higher priced goods.

IF IT IS NEW WE ARE SURE TO HAVE IT.
